

"Incandescent" **Readout Indicators**

For Schools, Experimentors & Industry

BASIC CIRCUIT

Alco introduces a new series of numerical and symbol readouts making use of a unique in-line design to provide crystal-clear displays without focusing problems. Thereby allowing equally clear viewing from any angle--and most important--compactness that assures a neat fit in a limited space, and long life bulbs for infrequent replacement.

This design makes use of engraved acrylic plates of non-yellowing quality, which are mounted in a tightly packed stack and individually edge-lit by selectively energizing the circuit to the lamps.

These indicators are of sturdy construction and are precision machined from one piece of aluminum which also serves as a heat sink for the bulbs which are mounted on the top and bottom of the readout.

Front and rear tapped holes are provided for mounting directly on a panel or on brackets optionally provided. A violet filter is also available and is used to reduce incident lighting effects resulting in a better contrast.

SPECIFICATIONS

NUMERAL READOUT	0 to 9 and a period
SYMBOL READOUT	+ - Ω V %
NUMERAL SIZE	.55" High
STANDARD VOLTAGES	6, 14, and 24 Volt
BULBS USED (T-1-3/4)	#2181 6.3V #2182 14V #2192 24V
BULB LIFE	20,000 to 50,000 hrs
CURRENT DRAIN	6.3V @ 200 ma 14V @ 80 ma 24V @ 50 ma
BODY SIZE	2.56" x .78" x .83"
UNIV. BRACKET	Holds 2 to 8 readouts

PRICE SCHEDULE

MODEL	VOLT	TYPE	EACH	10	25	50
RK-6	6.3V	Numeric	9.95	7.95	6.95	6.35
RK-14	14V	Numeric	9.95	7.95	6.95	6.35
RK-24	24V	Numeric	10.45	8.34	7.29	6.66
RK-6S	6.3V	Symbol	9.95	7.95	6.95	6.35
RK-14S	14V	Symbol	9.95	7.95	6.95	6.35
RK-24S	24V	Symbol	10.45	8.34	7.29	6.66
RKP-6	6.3V	Numeric	10.45	8.34	7.29	6.66
RKP-14	14V	Numeric	10.45	8.34	7.29	6.66
RKP-24	24V	Numeric	10.95	8.74	7.64	6.98
RKP-6S	6.3V	Symbol	10.45	8.34	7.29	6.66
RKP-14S	14V	Symbol	10.45	8.34	7.29	6.66
